Apply less. Achieve more.

Poa annua

Eleusine indica

Digitaria sanguinalis

SPECTICLE® IS A PRE-EMERGENT UNLIKE ANY OTHER.

SPECTICLE offers warm season turf managers an innovative tool for controlling all major weeds. That's because SPECTICLE is proven to provide superior pre-emergent control of the most troublesome weeds. It offers residual control for up to eight months and less active ingredient than competitive products.

SPECTICLE delivers many key benefits:

- Outstanding residual control of *Poa annua*, Goosegrass, Crabgrass and Annual Sedge
- Controls additional 75 broadleaf and grassy weeds
- Non-staining, low-odor formulation
- Available in a new FLO formulation and even more application options

For optimal results, please follow the recommended use rates below.
