Bonide Shotgun® REPELS-ALL® Animal Repellent Granules effectively repels Deer, Rabbits, Squirrels, Chipmunks, Dogs, Cats, Raccoons, Porcupines, Birds, Rats, Beavers, Groundhogs, Skunks, and Shrews from around your home and garden area. Apply around homes, gardens, garbage cans, barns, swimming pools, garden sheds, woodpiles, decks, patios, outbuildings, boathouses, campsites, picnic areas, cabins, trailers, travel trailers, RV hook-up sites, and other areas where these animals may be a problem. May be used in areas where children and pets play. **REPELS-ALL® Granules** is biodegradable and will not harm lawns, gardens, flowerbeds or other desirable plants when used as directed.

REPELS-ALL® Granules is exempt from registration with the Federal EPA under section 25(b) of FIFRA, and as such, is not registered with the Environmental Protection Agency. Bonide represents that this product and its ingredients qualify for exemption from registration under FIFRA.

HOW IT WORKS

The unique blend of ingredients in **REPELS-ALL® Granules** causes a mild irritation to animal's nasal passages. When an animal touches, tastes or smells **REPELS-ALL® Granules**, this irritation triggers the natural instinct to escape/avoid and the animal simply leaves. **REPELS-ALL® Granules** provides a powerful scent/taste repellent that animals find unpleasant and irritating. **REPELS-ALL® Granules** does not harm the animal, it drives them away, naturally.

HOW IT WORKS Cont.

This product is an animal behavior modification tool. It may need to be supplemented with other behavior modification techniques to break animals (particularly domestic animals) of existing bad habits.

Best results are obtained when application is made at least 6 hours prior to anticipated rainfall. To maintain effectiveness, reapplication is recommended after heavy or frequent rainfall. Under normal conditions, **REPELS-ALL® Granules** will last up to 2 months, however, to achieve maximum effectiveness, follow the application instructions listed below.

DIRECTIONS FOR USE

How To Use: **REPELS-ALL® Granules** can be applied as either a Broadcast application at the rate of 1 pound per 500 sq. ft. or as a Perimeter/Barrier treatment, sprinkling a band 6 – 8 inches wide, next to and around the area you wish to protect. When treating young, vulnerable plantings, make first application at the beginning of their growth cycle and repeat at 7 to 10 day intervals during periods of rapid growth. Apply monthly during periods of moderate growth. Do not apply directly to vegetable crops intended for human consumption. Apply to the area around desirable vegetables to form a repelling barrier.

TO PROTECT BULBS

from birds, squirrels, and chipmunks. After placing bulbs in planting hole, apply one (1) tablespoon of product into the hole, making sure granules surround the bulb, then backfill with soil.

ENDANGERED SPECIES CONSIDERATIONS

Before using this product, consult with State or local wildlife authorities to ensure that use does not present a hazard to any threatened or endangered species. Where necessary, obtaining all required permits and licenses is the responsibility of the applicator.

FIRST AID

Product can cause moderate eye irritation. For certain individuals, skin irritation may occur. In case of eye contact, flush with plenty of water. In case of skin irritation, wash area thoroughly with soap and water. Seek medical attention if irritation persists. Do not use this product if you are allergic to eggs.

STORAGE AND DISPOSAL

Store and transport in an upright position. Store only in original container, in a dry place inaccessible to children and pets. Do not reuse empty container. Discard empty container in trash.

OTHER PRECAUTIONS

Do not apply directly to water.

SATISFACTION GUARANTEED

If not completely satisfied, return unused portion of product, along with purchase receipt to Bonide Products, Inc. for a refund.
