

Espoma Organic® Soil Acidifier

- ✓ **Lowers pH to optimum range**
- ✓ **Also use for blueberries and hydrangeas**
- ✓ **Provides fast acting and long lasting source of sulfur**
- ✓ **Safer than Aluminum Sulfate***
- ✓ **All Natural. Approved for organic gardening**

Espoma Organic® Soil Acidifier is the finest, most effective soil acidifier available. It contains all natural minerals that can be used to correct the problem of alkaline soil.

Soil Acidifier

FACT SHEET

Espoma Organic® Soil Acidifier GUARANTEED ANALYSIS

Sulfur (S).....30%
 18% Free Sulfur
 12% Combined Sulfur

Derived from: Elemental Sulfur and Gypsum.

Directions

We recommend wearing gardening gloves when feeding your plants

Broadcast Rate

Apply 12 lbs. per 100 sq. ft. for each one point reduction in soil pH desired. For heavy clay soils increase rate to 15 lbs. Gradual reduction in soil pH is preferred as dramatic reduction can result in stress.

For Planting: 1 lb. = approx. 2 cups

For Hydrangeas & Blueberries

Apply in the spring to lower soil pH. For new plants use 1-1/4 cups. For established plants use 2-1/2 cups. Spread evenly around the plant out to the drip line and water well. Repeat in 60 day intervals until desired pH or bloom color is achieved..

For Potted Plants

Add one tbs. for each 4" of pot diameter.

*Safer than Aluminum Sulfate due to potential toxic levels of Aluminum with continued use of Aluminum Sulfate.

Comparison Chart

	Soil Acidifier	Aluminum Sulfate
Hazardous (MSDS)	No	Yes
% Sulfur	30%	15%
Long-Lasting	Yes	No
Potential Aluminum toxicity to plant	No	Yes
