

InTiceTM

THIQUIDTM

ant bait

Thick, Syrup Bait • For Indoor and Outdoor Use • Attracts Ants Fast
Kills the Ants You See and the Ants in the Nest • Odorless Formula

Active Ingredient: Sodium Tetraborate Decahydrate (Borax).....5.0%
Other Ingredients:.....95.0%
Total:.....100.0%

EPA Reg. No.: 73079-7 EPA Est. No.: 73079-MO-1

Net Contents: 128 fl oz (One Gallon)

KEEP OUT OF REACH OF CHILDREN CAUTION

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals: CAUTION: Harmful if swallowed or absorbed through the skin. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, or using tobacco.

First Aid: If Swallowed: Call a poison control center or doctor

immediately for treatment advice. Have person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.

Have the product container or label with you when calling a Poison Control Center or doctor or going for treatment. You may also call 1-800 858 7378 for emergency medical treatment information.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Use Restrictions: DO NOT USE in edible product areas of food handling establishments, restaurants or other areas where food is commercially prepared or processed. Do not use in serving areas where food is exposed. Do not contaminate feed and food stuffs. Place bait in areas inaccessible to children and pets.

Indoor Use

Attracts and Kills All Common Household Ants Including: Argentine ants, ghost ants, cornfield ants, pavement ants, acrobat ants, white footed ants, little black ants, odorous house ants, crazy ants, big headed ants, and other sweet feeding ants except pharaoh, carpenter, fire and harvester ants.

For Use in and Around: Homes, hospitals, restaurants, apartments, grocery stores, institutional buildings, schools, cafeterias, warehouses, storage areas, food processing plants, mobile homes, boats, military bases, theaters, nursing homes, and on military, commercial, and cruise ships.

Controlling and Eliminating Ants: First ants will come in large numbers, but soon disappear. This product is formulated to allow worker ants to consume the product and survive long enough to carry the liquid back to the nest and deliver a dose to the rest of the colony. Monitor the placements and ensure there is always a fresh supply of InTice Thiquid Ant Bait at each placement. Complete control may take up to two weeks.

Using InTice Thiquid Ant Bait: Apply the product to small pieces of cardboard, paper or foil, or in purpose built bait stations and place product in inaccessible areas where ants are seen, such as the edges of sinks, tubs, window sills, under food cabinets, along floors and base boards and in corners. Use plenty of bait placements, the more bait placements the better. Since invading ants usually have outdoor nesting sites, it often helps to put the product outside, close to where ants are found entering the structure. Ants typically follow defined trails from the nest to food or water. Placing InTice Bait close to these trails will improve control.

Outdoor Use

Environmental Hazards: Do not apply directly to water, or to areas where surface

water is present or to intertidal areas below the mean high-water mark. Do not contaminate water when disposing of equipment washwaters or rinsate.

Using InTice Thiquid Ant Bait as a Perimeter Ant Defense System: Locate areas around the building where ants are seen trailing. Place the bait stations against the foundation where the trails are found. Spacing the bait stations every 5 to 10 feet will provide the best results. Check the bait stations regularly for activity. Remember ants will feed on InTice Thiquid Ant Bait and carry the bait back to the rest of the colony. Heavy infestations may require several bait placement refills and up to two weeks for control.

InTice Thiquid Ant Bait can be diluted with water to obtain a 1% or 2.5% solution of Borax. Such a dilution is helpful when a substantial volume of InTice Thiquid Bait is needed in a baiting program designed to control very large multi-queen and multi-colony ant infestations.

1% Dilution: 1 part InTice Thiquid Ant Bait to 4 parts water. Mix thoroughly.

2.5% Dilution: 1 part InTice Thiquid Ant Bait to 1 part water. Mix thoroughly.

Using InTice Thiquid Bait in Bait Stations: Apply the 1% or 2.5% InTice Thiquid Ant Bait solution using bait stations designed to hold bait. This product will work well in Rockwell's BaitPlate, D-Sect and PFT stations (sold separately).

Storage and Disposal

Storage: Store in a cool dry place. Do not store where children or animals may gain access.

Disposal: If Empty: Do not reuse this container. Place in trash or offer for recycling if available. If partly filled: Call you local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

Warranty Limitations and Disclaimer

Seller makes no warranty expressed or implied, concerning the use of this product other than as indicated on the label. Buyer accepts this material subject to these terms, and assumes all risk of usage and handling except when used or handled in accordance with this label. There are no expressed or implied warranties of merchantability or fitness for any particular purpose, except as specifically stated herein. To the extent consistent with applicable law, the manufacturer shall not be liable for any consequential damages based on the use of the product.
