### ENVIRONMENTAL HAZARDS

This pesticide is toxic to fish. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid run off to water bodies or drainage systems.

### READ THE ENTIRE LABEL BEFORE USE.

### DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**DO NOT ALLOW PEOPLE OR PETS TO CONTACT TREATED AREAS UNTIL SPRAY HAS DRIED.**

**USE RESTRICTIONS FOR LAWNS AND ORNAMENTALS:**

Do not use treated plants, grass or clippings for food or feed.

**FOR OUTDOOR RESIDENTIAL USE ONLY.**

**SHAKE WELL BEFORE USING.**

### PRODUCT USE TIPS

This product is the most effective as a fungicide when it is used to prevent diseases before they appear. Begin applications early in the season when conditions are favorable for disease development [such as cloudy, wet weather].

If it rains before product has dried, re-apply. Do not apply if temperatures are 90°F or higher as damage to plants may occur. Make applications to a dry leaf surface early in the morning or evening when winds are calm.

*Use with care on ferns, palms and fuchsia. As with all plants, especially carnations, chrysanthemums and roses, there are a wide variety of species; consequently, a wide variety of susceptibility to injury. To test for plant sensitivity, spray a plant, wait 24 hours, and check for possible injury.*

## HOW TO USE

Spray to wet plant surfaces, covering both upper and lower leaf surfaces. Apply to the point when spray just begins to run off the leaves. Treat once every 2 weeks on ornamental shrubs and flowers throughout the growing season until diseases are no longer present. On roses, treat once every 7 to 10 days if Black Spot is present. Start application when the lawn begins to turn green in the spring or when signs of disease are present. Check the spray application timing [interval] for each type of vegetable, fruit, nut and berry listed on the label.

Use a ferti•lome® Hose-End Sprayer or Ortho® Dial 'N Spray or hand-held compressed air sprayer such as ferti•lome® Premium Home & Garden Sprayer.

## WHERE TO USE

### LAWNS

Controls Brown Patch, Crown Rot, Powdery Mildew, Septoria Leaf Spot, Zonate Leaf Spot, Fusarium Blight, Fusarium Patch (Pink Snow Mold), Gray Leaf Spot, Rust, Summer Patch, Dollar Spot, Red Thread, Melting Out, Anthracnose, Copper Spot, Necrotic Ring Spot and Leaf Smut. For lawn applications in Nassau and Suffolk counties in New York State, do not apply more than 3 times per given area per year.

One pint of product will treat 750 sq. ft. of lawn area.

**Dilute 5-1/3 fl. ozs. of product in 1 gal. of water to treat 250 sq. ft. of lawn area.** Repeat application once every 2 to 4 weeks or at the first sign of new disease development. For Fusarium Patch (Pink Snow Mold), make application prior to snow cover. For Leaf Smut, make application in fall after lawn enters dormancy and/or in the spring prior to new lawn growth. Do not apply more than 16 treatments per year.

## VEGETABLES

**Asparagus (To Control RUST):** Uniformly apply to all parts of the plant to the point of runoff. **Dilute 2 fl. oz. (4 tbs.) per 1 gal. of water.** Do not apply to harvestable spears. In all states except California, this product may be applied within 180 days of harvest. Do not apply more than one time per growing season. In California only, the product may be applied within 30 days of harvest. Do not apply more than 4 times per year. In all locations, apply to the developing ferns after harvest. Reapply every 14 days as disease symptoms persist.

**Cucurbits [Cantaloupe, Melons, Pumpkin, Squash] (To Control POWDERY MILDEW):** Uniformly apply to all parts of the plant to the point of runoff. **Dilute 2 fl. oz. (4 tbs.) per 1 gal. of water.** The product may be applied up to and including the day of harvest. Do not apply more than 5 times per season. Reapply every 7 to 10 days as disease symptoms persist. Do not plant a new crop in the same place as the crop that was treated within 30 days of the last application.

**Tomatoes (To Control POWDERY MILDEW):** Uniformly apply to all parts of the plant to the point of runoff. **Dilute 1-1/2 fl. oz. (3 tbs.) per 1 gal. of water.** The product may be used up to and including the day of harvest. Do not apply more than 4 times per season. Apply when the disease first appears or if conditions are favorable for disease development [warm, moist weather], reapply every 21 days as disease symptoms persist. Do not plant a new crop in the same place as the crop that was treated within 30 days of the last application.

## NUTS

**Almonds (To Control BLOSSOM BLIGHT, RUST and SHOTHOLE):** Uniformly apply to the point of runoff. **Dilute 1/2 to 3/4 fl. oz. (1 to 2 tbs.) per 1 gal. of water.** Do not apply within 90 days of harvest. Do not apply more than 3 times per season. For Blossom Blight and Shot-hole, apply at pink bud stage (when about 5 percent of the buds have bloomed). If conditions are favorable for disease development [warm, moist weather], reapply at full bloom and when the petals fall. For rust, apply 8 weeks after flowering. If conditions are favorable for disease development, reapply every 21 days as disease symptoms persist.

## FRUITS

**Grapes (To Control ANTHRACNOSE, BLACK ROT and POWDERY MILDEW):** Uniformly apply to all plant parts to the point of runoff. **Dilute 2 fl. oz. (4 tbs.) per 1 gal. of water.** Treat every 2 weeks for best control of these diseases. Do not apply within 2 weeks of harvest. Do not apply more than 5 times per season.

**Apples (To Control POWDERY MILDEW, RUST and SCAB):** Uniformly apply to all plant parts to the point of runoff. **Dilute 1 fl. oz. (2 tbs.) per 1 gal. of water.** Do not treat within 2 weeks of harvest. Do not apply more than 5 times in a season. Repeat applications once every 7 to 10 days.

**Apricots, Cherries, Nectarines, Peaches, Plums and Prunes (To Control BROWN ROT, POWDERY MILDEW, SHOTHOLE and RUST [plums and prunes only]):** Uniformly apply to all plant parts to the point of runoff. **Dilute 1/2 to 3/4 fl. oz. (1 to 2 tbs.) per 1 gal. of water.** Applications may be made up to day of harvest. Do not apply more than 4 times in a season. Repeat applications once every 7 to 10 days.

## BERRIES

**Strawberry (To Control LEAF BLIGHT, LEAF SPOT and POWDERY MILDEW):** Uniformly apply to all plant parts to the point of runoff. **Dilute 2 fl. oz. (4 tbs.) per 1 gal. of water.** The product may be applied up to the day of harvest. Do not apply more than 6 times per season. Apply when the disease first appears or when conditions are favorable for disease development [warm, moist weather]. Reapply every 14 to 21 days as disease symptoms persist. Do not plant a new crop in the same place as the crop that was treated within 30 days of the last application.

**Blackberry, Boysenberry, Dewberry, Loganberry, Raspberry (To Control CANE and LEAF RUST, LEAF SPOT, ORANGE RUST, POWDERY MILDEW and YELLOW RUST):** Uniformly apply to all parts of the plant to the point of runoff. **Dilute 1 fl. oz. (2 tbs.) per 1 gal. of water.** Do not apply more than 4 times per season. Apply at budbreak and reapply every 10 to 14 days so long as disease symptoms persist.

**Gooseberry (To Control ANTHRACNOSE and POWDERY MILDEW):**

Uniformly apply to all parts of the plant to the point of runoff. **Dilute 2 fl. oz. (4 tbs.) per 1 gal. of water.** Do not apply more than 8 times per season. For Anthracnose, apply when the first leaf has completely unfolded. If conditions are favorable for disease development [warm, moist weather], reapply every 10 to 14 days. For Powdery Mildew, apply before and through bloom up to 2 weeks post-bloom.

**ROSES, FLOWERS AND ORNAMENTAL SHRUBS**

Apply to the point when spray begins to run off the leaves. **Dilute 1-1/2 fl. oz. (3 tbs.) per 1 gal. of water.** Treat once every 2 weeks throughout the season or until conditions for favorable disease development [warm, moist weather] are no longer present. Allow spray to dry completely before watering. Treat roses once every 7 to 10 days if Black Spot is present; otherwise, make an application once every 10 to 14 days. When treating azaleas, mountain laurel or rhododendrons, begin spraying when flowers start to show color. Treat all other listed plants when conditions favoring diseases first start to develop.

**DISEASES CONTROLLED**

**Rose:** Black Spot, Powdery Mildew, Rust

**Azalea, Mountain Laurel, Rhododendron:** Petal Blight (*ovulinia* spp.), Powdery Mildew

**Abelia, Acalypha (Copperleaf), Catalpa, Flowering Cherry, Hackberry, Honeysuckle, Privet, Trumpet Creeper, Zinnia:** *Cercospora* Leaf Spot, Powdery Mildew

**Ageratum, Anemone, Angelica, Aster, Chokeberry, Chrysanthemum, Columbine, Dianthus, Flowering Quince, Flowering Maple (Abutilon), Four O'Clock, Fuchsia, Marigold, Moonflower, Ninebark, Russian Olive:** Rust

**Achillea (Yarrow), Alder, Amelanchier (Juneberry), Barberry, Carnation, Delphinium, Gaillardia, Gardenia, Geranium, Hollyhock, Petunia, Photinia, Salvia, Snapdragon, Viburnum:** Powdery Mildew, Rust

**African Violet, Begonia, Bittersweet, Buckeye, California Poppy, Chestnut (Horse), Cosmos, Crape Myrtle, Dahlia, Elm, Euonymus, Lilac, Locust, Maple, Oak, Poinsettia, Spirea, Sycamore, Willow:** Powdery Mildew

**Flowering Almond:** Blossom Blight (*Monilinia spp.*) **Bellflower, Buttonbush, Phlox, Sunflower:** Cercospora Leaf Spot, Powdery Mildew, Rust

**Calendula, Hydrangea, Leucothoe:** Cercospora Leaf Spot

**Flowering Crabapple, Flowering Pear, Hawthorn:** Powdery Mildew, Rust, Scab

**Dogwood:** Anthracnose, Powdery Mildew

**Pyracantha:** Fusicladium Scab

## STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage and disposal.

**Pesticide Storage:** Store in cool, dry area away from heat or open flame. Keep from freezing. **Pesticide Disposal: Non-refillable container. Do not reuse or refill this container. If empty:** Do not reuse this container. Place in trash or offer for recycling if available. **If partly filled:** Call your local solid waste agency for disposal instructions. Never place unused product down any indoor or outdoor drain.

#### **LIMITED WARRANTY AND DISCLAIMER**

The manufacturer warrants only that the chemical composition of this product conforms to the ingredient statement on the label, and that the product is reasonably suited for the labeled use when applied according to the Directions for Use.

THE MANUFACTURER NEITHER MAKES NOR INTENDS ANY OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE EXPRESSLY DISCLAIMED. This limited warranty does not extend to the use of the product inconsistent with label instructions, warnings or cautions, or to use of the product under abnormal conditions such as drought, excessive rainfall, tornadoes, hurricanes, etc. These factors are beyond the control of the manufacturer or the Seller. Any damages arising from a breach of the manufacturer's warranty shall be limited to direct damages, and shall not include indirect or consequential damages such as loss of profits or values, except as otherwise provided by law.

The terms of the Limited Warranty and Disclaimer cannot be varied by any written or verbal statements or agreements. No employee or agent of the Seller is authorized to vary or exceed the terms of the Limited Warranty and Disclaimer in any manner.
