

EASY INSTRUCTIONS

Peel off the white strip from the back of the trap to expose the mounting strip. Mount the trap along the edge of the window where it will not contact drapes, blinds or their cords. Peel the front release paper to expose the sticky front of the Window Fly Trap. Use more traps for best results.

Traps can also be used on tile, metal or wooden surfaces or walls where flies are seen. If used in food display cabinets, replace traps every day.

Replace traps when full or every 3 months. Dispose of old traps in regular garbage. In case of contact, glue can be removed with vegetable oil.

**PEEL BACK
STRIP**

**ATTACH TO
WINDOW**

**PEEL FRONT
PAPER**

**CATCH
FLIES!**

Safe for use in food-handling and food storage areas
Place traps out of reach of children
Dispose of traps in regular garbage
