

## PRECAUTIONARY STATEMENTS

### Hazards to Humans and Domestic Animals

**Caution:** Causes moderate eye irritation. Harmful if absorbed through skin. Avoid contact with eyes, skin or clothing. Wash thoroughly with soap and water after handling.

### ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to any body of water. Do not contaminate when disposing of equipment washwaters. Apply this product only as specified on this label.

### STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

**Storage:** Store in original container in a cool, dry place out of sunlight.

**Pesticide Disposal:** Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

**Container Disposal:** Completely empty bottle into application equipment. Then dispose of empty bottle in a sanitary landfill or by incineration, or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

### FIRST AID

**IF on SKIN or CLOTHING:**

- Take off contaminated clothing.
- Rinse skin immediately with plenty of water for 15-20 minutes.
- Call a poison control center or doctor for further treatment advice.

**IF in EYES:**

- Hold eye open and rinse slowly and gently with water for 15-20 minutes.
- Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye.
- Call a poison control center or doctor for treatment advice.

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

# RESULTS

# Indoor Insect Killer

**KILLS** Bed Bugs, Ants,  
Roaches & other insects

## WORKS IN MINUTES!

Ready to Use! • No Odor

KEEP OUT OF REACH OF CHILDREN

**CAUTION**

Net Wt: One (1) lb.

### ACTIVE INGREDIENTS:

Pyrethrin ..... 0.2%  
Pyrethrin Butoxide, Technical\* ..... 1.0%  
Silicon Dioxide ..... 82.0%  
INERT INGREDIENTS ..... 16.8%  
TOTAL ..... 100%  
\*Equivalent to 0.8% (based on dry) by weight of other and 0.2% reduced compounds

## DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

**RESULTS INDOOR** Insect Killer is intended for application by hand or with power duster, or other suitable means, to hiding and running areas, and places where pests are found. To apply RESULTS into cracks and crevices use a bulbous duster or other suitable equipment. Use in adequate ventilation and avoid breathing dust. Use a dust mask for prolonged periods of use. Apply lightly and uniformly in treatment area. The amount to be applied will vary with the site, but should usually be 8 to 16 oz. per 1,000 sq. ft. Repeat treatment as necessary to maintain adequate control.

**Roaches and Silverfish:** Dust lightly, paying special attention to cracks and hidden surfaces, around pipes, sinks and moldings.

**Ants, Crickets and Box Elder Bugs:** Dust lightly areas around windows, doors and other places where these pests may enter premises.

**Bedbugs:** Treat liberally baseboards, moldings, cracks, bedstead and both sides of mattress.

**House Flies:** Lightly coat window frames and sills so flies lighting will contact dust.

**Food and Feed Handling Establishments:** Places other than private residences in which food is held, processed, prepared or served.

**Food and Feed Areas:** Including areas for receiving, storage, packing (canning, bottling, wrapping, boxing), preparation, edible waste storage and enclosed processing systems (mills, dairies, edible oils, syrups). Serving areas when food is exposed and facility is in operation are also considered a food area. Application limited to spot or crack and crevice treatments only.

**Crack and Crevice Treatment:** Apply in small amounts directly into cracks and crevices using equipment capable of directing insecticide in points between different elements of construction, between equipment and floors, openings leading to voids and hollow spaces in walls, equipment legs and bases where cockroaches, ants, silverfish, and crickets hide.

**Spot Treatment:** No individual spot will exceed two (2) sq. ft. Limit spot treatments to wall or floor surfaces where pests have been seen or where pests are suspected of hiding.

Spot treatment may also be made to areas where any of the above pests hide or inhabit such as baseboards, storage areas, closets, around water pipes, doors and windows, behind and under refrigerators, cabinets, sinks, stoves and other equipment. Care should be taken to avoid depositing the product onto exposed food contact surfaces or introducing the material into the air.

**Non-Food Areas:** Include garbage rooms, lavatories, floor drains (to sewers), entries and vestibules, offices, locker rooms, machine rooms, boiler rooms, garages, mop closets and storage (after canning or bottling).

### WARRANTY STATEMENT

Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use, such as weather, compatibility with other chemicals, and conditions of application equipment will vary, seller makes no claims other than those stated on this label.
