

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not contaminate food, feed or foodstuffs. Place baits in areas inaccessible to children and pets.

DIRECTIONS FOR USE

Listed ants are attracted to and will feed on this product until they die. The bait is designed to work slowly and sufficient bait should be made available for at least 14 days of continuous feeding. Replace the baits with fresh baits as needed.

To kill ants and roaches use indoors or outdoors near homes, apartments, condominiums, schools, hospitals, restaurants, grocery stores, food processing plants (nonfood areas), boats, cruise ships, institutional and commercial buildings, nursing homes, hotels and warehouses.

To activate this product, place station on a flat surface with the cone facing up. If cone is filled with liquid, move station from side to side rapidly and liquid will leave the cone.

With a scissor cut the top of the cone, so that the top of the remaining cone is level with top of surrounding circular surface. Place bait station according to label directions.

Place the bait station on or near ant activity. Place stations under food cabinets, sinks, stoves, refrigerators, food storage areas, attics, garages, basements, storage areas, closets. Place on exterior windowsills and in doorways to help prevent entry of ants. When using bait stations, wash hands thoroughly before handling to remove any odors that may be repellent to ants, i.e. tobacco, garlic, and chemical cleaners.

Do not use sprays, foggers or any repellent chemicals or cleaners near the bait containers or placements. This may contaminate the bait and disrupt ant foraging causing the insects to cease feeding.

Outdoors: For best results place stations in shaded areas or create shade for the bait station. Avoid placing bait station where it will receive direct sunlight whenever possible.

- * For use around Structures – The number of bait stations to use will vary with the type of ant and the size of the colony.
- * For initial placement – Place one bait station every fifty feet around the structure to be treated.

To activate and place the station:

- * Prepare Anchor – Remove protective adhesive cover from anchor stake to expose adhesive and press bait station onto adhesive.
- * Place the anchor into the soil until the bait station is level with the soil. If you encounter difficulty in seating the bait station properly, remove it and loosen the soil, then repeat the anchoring process.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Do not apply directly to water. Do not contaminate water when disposing of equipment wash waters or rinsate.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal of this product. **Storage:** Store product in original container in a cool dry place out of reach of children. Do not allow product to freeze. **Pesticide Disposal and Container Handling: If empty:** Do not reuse this container. Place in trash or other for recycling if available. **If partly filled:** Call your local solid waste agency for recycling instructions. Never place unused product down any indoor or outdoor drain.

NOTICE: To the extent consistent with applicable law, Buyer assumes all responsibility for safety and use not in accordance with directions. Product guaranteed to the extent of purchase price, only when used according to label directions.
