Outdoors

Thermal Applications: This formulation is to be used undiluted in only such portable thermal applicator equipment that can deliver spray particle sizes within aerosol-size range. For reduction in annoyance from flies, mosquitos and gnats in yards, patios, around swimming pools and picnic areas. Hold thermal applicator at least five feet from any object, especially plants and shrubbery. Avoid wetting any plant foliage. Apply undiluted at the rate of 32 ozs. per 2,900 sq. ft. Fog only when there is no breeze, or the wind velocity is less than 3 miles per hour. The ideal time is generally at dusk when the wind dies down and the air temperature and ground temperature are approximately the same. Under these conditions the fog will linger in the treated area for a longer time. Apply fog while moving away from treated area. Avoid inhalation of the fog. Do not enter the treated area until the fog has dissipated. Repeat application as necessary.

Page: Two

Contact Spray: To kill nuisance pests around buildings, patios and paved areas: Spray directly on insects. Avoid spraying turf or plants.

Ants: Same as directed for indoor application.

Wasps, Hornets, Yellow Jackets: Application should be made in late evening when insects are at rest. Point spray opening away from face. Aim spray at nest opening in bushes, under eaves, chimneys, cracks and crevices. Thoroughly saturate nest with spray, contacting as many insects as possible. Spray liberally into hiding and breeding places.

Earwigs, sowbugs, spiders, centipedes and millipedes: Apply as a contact spray, as for indoor use.

To control flies, mosquitoes, gnats and crawling insects around premises, spray thoroughly around doors, window frames and similar areas of entry. Also thoroughly spray garbage and refuse areas, and similar areas of heavy infestation. Do not spray on turf or plants.

Page: Four

Indoors

Contact Spray: To kill cockroaches, waterbugs, ants, crickets, silverfish, earwigs, spiders, grain mites, sowbugs, centipedes and millipedes. Adjust spray to produce large wetting-type spray particles. Direct spray to contact these insects in cracks and crevices in floors, baseboards, around pipes, behind cabinets and other harborages. Spray these infested areas until thoroughly wet. Repeat as necessary.

To Kill Ants: Spray around doors and window frames, ant trails, and hills in addition to direct spray to contact insects.

To Kill Spiders: Spray directly on these pests and use repeated applications to the webbing and all cracks and crevices which harbor spiders.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing vapors or spray mist, and provide adequate ventilation of area being treated. Contact with the eyes, skin or clothing should be avoided.

ENVIRONMENTAL HAZARDS

This pesticide is highly toxic to fish. Do not apply directly to water. Drift and runoff from treated sites may be hazardous to fish in adjacent waters. Consult your State's Fish and Wildlife Agency before treating around such waters. Do not contaminate water when disposing of equipment washwaters.

PHYSICAL OR CHEMICAL HAZARDS

This formulation is combustible. Do not use or store near heat or open flame. Do not store below 32 degrees F.

FIRST AID

If Swallowed: Call a physician immediately. Gastric lavage is indicated if material was taken internally. DO NOT INDUCE VOMITING unless directed by a physician. Vomiting may cause aspiration pneumonia. Do not induce vomiting or give anything by mouth to an unconscious person.

If Inhaled: Remove victim to fresh air. Apply respiration if indicated.

If on Skin: Wash contaminated skin with soap and water.

If on Eyes: Flush eyes with plenty of water for at least 15 minutes. Get medical attention immediately.

Avoid contamination of feed and foodstuffs.

Food should be removed or covered in such a way as to prevent contamination during treatment. Do not apply while food processing plant is in operation.

Food contact surfaces and equipment must be washed with an effective cleaning compound followed by a potable water rinse after treatment.

Remove pets, birds, and cover fish aquariums before spraying.

DO NOT ALLOW CHILDREN IN TREATED AREAS UNTIL SURFACES ARE DRY.

Page: Six

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of at an approved waste disposal facility.

Container Disposal: Triple rinse (or equivalent) and offer for recycling or reconditioning, or dispose of in a sanitary landfill, or by other approved State and local procedures. Do not reuse empty container.

WARRANTY STATEMENT

Our recommendations for use of this product are based upon tests believed to be reliable. The use of this product being beyond the control of the manufacturer, no guarantee, expressed or implied, is made as to the effects of such or the results to be obtained if not used in accordance with directions or established safe practice. The buyer must assume all responsibility, including injury or damage, resulting from its misuses as such, or in combination with other materials.
