

Happy Frog® Feeding Schedule

For best results use our Happy Frog® fertilizers in conjunction with liquid plant foods in the feeding schedule below. Use your preferred FoxFarm potting soil when transplanting seedlings into larger containers. We recommend a two gallon size or larger. It is important to maintain a pH of 5.6 to 6.8 to prevent nutrient lockout and reduce stress on

plants. Never mix pure concentrates together; always add water first. Should plants show signs of stress or color irregularities, flush your soil. When using coco-based media, flush every two weeks during the flowering cycle as coco has a tendency to retain unwanted salt residue more than peat-based soils.

FEED ONCE PER WEEK

PER GALLON SOIL (SCRATCH INTO SOIL)

Time*	Week	Seedlings and Cuttings	1	2	3	4	5	6	7	8	9	10	11	12
