

PiGNX®

Application of PiGNX and DeTour using Caution Tape

PiGNX applied to the top of a concrete wall using caution tape (available from Home Depot for around \$7.00/roll –caution is printed in both English and Spanish.) The caution tape is doing a couple of things. First it is preventing the the PiGNX from being absorbed into the concrete and second it is acting as an actual warning sign to help prevent the product from being touched. Tape can be secured using Silicone caulk every few feet.

DeTour^{FOR}Rodents

A Bio-Repellent by PiGNX 

Application of PiGNX and DeTour using Caution Tape

DeTour for Rodents can be applied directly on top of caution tape (available from Home Depot for around \$7.00/roll – caution is printed in both English and Spanish.) Tape can be used to keep the product from being absorbed into concrete or wood. It can also be used in areas where people need to be warned of the presence of the DeTour.
