

INSECTICIDE

The **FIRST** Indoxacarb Aerosol

# DOXEM NXT

PRESSURIZED SOLUTIONS

DOXEM NXT is a broad spectrum insecticide with four active ingredients and four unique modes of action.

## Features & Benefits of using DOXEM NXT

### Doxem NXT Firsts

- First aerosol to contain indoxacarb
- First aerosol with imidacloprid for use in food handling
- First aerosol to combine 2 adulticides and 2 IGRs
- Suitable for use with ant and cockroach baits

### 4 Unique Modes of Action

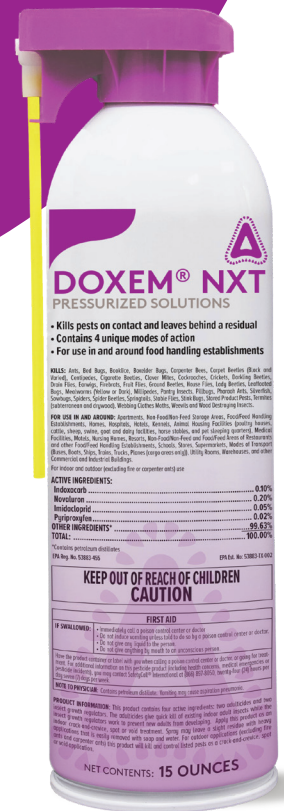

- The right rate of 4 individual active ingredients
- No mixing to get the benefits of 4 unique modes of action
- Mixing pesticides with different modes of action (MOAs) can delay resistance within a pest population

### Provides residual control

- Quick knockdown and long lasting residual control of listed pests
- Keeps working even after application – for up to 180 days

### Flexibility

- May be used in food handling
- May be used on mattresses
- May be used indoor and outdoors
- Crack & crevice, void, or spot applications
- Ready to use aerosol can – no mixing; improves accuracy & precision

### Active Ingredients

- 0.10% Indoxacarb
- 0.20% Novaluron
- 0.05% Imidacloprid
- 0.02% Pyriproxyfen

### Packaging

- 12 x 15 ounce/case

**Control Solutions Inc.**  
A member of the ADAMA Group

# DOXEM NXT

## How it Works

- DOXEM NXT's four active ingredients work together to disrupt the life cycle of insects.
- Novaluron and Pyriproxyfen are Juvenile Hormone mimics. They prevent normal adulthood development & causes sterilization.
- Novaluron is a Chitin Synthesis Inhibitor. It prevents the formation of a new exoskeleton.

## Insects Controlled
