

3-D FOAM

POST-EMERGENT HERBICIDE

3-D FOAM is a 3-way post-emergent herbicide with MCPP to enhance weed control efficacy. It's the perfect addition for on-the-go golf course superintendents, LCO's and turfgrass managers. Quick and highly effective for spot treatments.

Features & Benefits

- Simple, Convenient, Easy to Use
- Powered by a 3-way combination of active ingredients: 2,4-D, mecoprop-p and dicamba for dependable broadleaf weed control
- Kills the weeds, not the lawn
- Rainproof in 30 minutes
- One application works in 24 hours

Effective Against

Clover, Chickweed, Dandelion, Ground Ivy, Henbit, Oxalis, Plantain and other broadleaf weeds. *See label for complete list.*

Use Sites

For use as a spot treatment on ornamental turf, golf courses, cemeteries, parks, sports fields, turfgrass, lawns, fence rows, hedge rows, ditches, right-of-ways, around buildings, driveways, sidewalks, carpaths, pavers, patios, retaining walls, and other similar areas where broadleaf weeds may grow.

Active Ingredient

- 30.56% 2,4-D
- 8.17% Mecoprop-p
- 2.77% Dicamba

Packaging

- 6 x 15 Ounce
- 128 cases per pallet

HRAC Classification

Group 4 Herbicide
