

Bifen L/P

Insecticide Granules

Bifen L/P is a 0.2% Bifenthrin sand based insecticide granule used for killing listed pests. Bifen L/P can be used to treat not only residential, but institutional, public, commercial and industrial buildings, parks, recreational areas and athletic fields. Once Bifen L/P is in the soil, it not only works as a killing method, but also as a prevention method.

Features & Benefits

- Provides long lasting residual. One application can protect your lawn areas for 2 to 3 months
- Releases active ingredient over time as it rains
- Safe against non-target animals such as birds, pets, and other mammals
- No odor and the low application rates
- For use along the outside of the home as a perimeter barrier or as a general broadcast in the yard
