

Turf Product Bulletin

Junction*

Fungicide/Bactericide

Product Description

Junction is a unique combination of two chemistries combined to create a broad-spectrum fungicide/bactericide. Junction, a high-quality dry flowable formulation providing a convenient solution to disease control in a wide array of turf diseases.

Disease Control

Algae, Rhizoctonia Brown Patch, Dollar Spot, Helminthosporium Melting Out, Leaf Rust, Stem Rust, Stripe Rust, Copper Spot, Fusarium Blight, Powdery Mildew, Red Thread[†], Slime Mold, Pythium Blight, Fusarium Snow Mold.

Features	Benefits
• Broad-spectrum fungicide/bactericide	• Control of a wide range of bacterial and fungal disease.
• Optimum ratio	• Cost-effective disease control.
• Two proven active ingredients; copper hydroxide/mancozeb	• Effective tool in resistance management. • Economical rotational fungicide. • Chemical synergism gives excellent contact/knockdown activity.
• Spray dried formulation with low residue	• Less dust and easier to transport and measure—dry formulation. • Reduced mixer/loader exposure. • Convenient 6 lb. bag.
• Superior algae control	• Provides contact and residual control.

Suggested Use

Apply a thorough coverage spray at 2 to 4 oz. per 1,000 sq. ft. Begin at the first sign of disease and spray on a 7-14 day interval. Always read and follow the label directions.
