

Monterey

Could Nematodes be the Real Problem?

- New turf lawn looking stressed?
- Your new veggies looking like they're under/over watered?
- Your new plant growth is stagnant?
- Browning, yellowing, wilting or thinning?

Monterey Nematode Control:

- Organic Product, 100% Bio-Pesticide, harvest the next day
- Obtained from the Quillaja saponaria tree native to Chile
- Provides excellent control of the following nematodes: Dagger, Root-Knot, Ring, Root-Lesion, Spiral Sheath, and Anguina pacifica

Untreated turf roots on left showing nematode damage

Turf roots on right treated with Monterey Nematode Control

1 qt. treats up to 4,000 sq ft
