

# DUO STICK SELECT™

*Dual action surfactant adjuvant*

**PRINCIPAL  
FUNCTIONING AGENTS**

Proprietary blend of methylated seed oil and organosilicone surfactants

**% ACTIVE INGREDIENT**  
99%

**FORMULATION**  
Concentrate

**MODE OF ACTION**  
MSO – OSS Blend

**RESTRICTED USE**  
None

**EPA REGISTRATION**  
N/A - All ingredients are exempt from tolerance under 40 CFR 180

**SIGNAL WORD**  
Danger

**PACKAGING**  
12 x1 qt, 4 x 1 gal

**LABELED USES**  
Herbicide tank mixtures

**Duo Stick Select™** is a high quality blend of organosilicone surfactants (OSS) and methylated soybean oils (MSO). Designed for use with herbicides that call for the use of MSO and that does not exclude the use of OSS, Duo Stick Select provides superior coverage and penetration than MSO alone. Provides excellent coverage when using lower spray volumes less than 15 GPA.

**PRODUCT BENEFITS**

- Increased efficacy of most pesticide applications
- Increased penetration of herbicides and fungicides
- Increased nutrient availability at the roots
- Increases the speed in which actives are available for uptake

**Directions for use**

**Duo Stick Select™** is designed for use with herbicides and may be used when the pesticide label calls for an MVO or MSO, but does not exclude the use of an organosilicone.

**Application Rates**

Application	Per 100 gallons
Turf & ornamental	16 to 48 ounces
Agriculture and citrus	16 to 48 ounces
Rights of way and forestry sites	16 to 32 ounces
Aquatic (surface)	16 to 32 ounces
Aquatic (submerged)	20 to 40 ounces
