

## Key Reasons for Using Soda Nozzle Defender

- Cleans and eliminates bacteria while nozzle parts are soaking.
- No more scrubbing parts when used on a regular basis.
- Easy and safe-to-use dissolving action formula in a powder form.
- Easy maintenance program will reduce employee labor cost.
- Our Soda Nozzle Defender cleaner is more efficient than any detergents, soda water, harsh bleaches, hot water. Guaranteed not to crack, deteriorate or harm your nozzle parts.

Our powdered formula is also ideal for use as a spray bottle applicator in cleaning other parts of your soda machine.

To sanitize nozzle parts after cleaning, use our rapid releasing STERAMINE Sanitizer Tablets.
