Contains the same
active ingredient
as AGRI-MEK®

Timectin™

Insecticide/Miticide

Abamectin Insecticide

Provides long lasting control of mites and insect pests including psyllids, leafminers and aphids. Registered on a wide variety of crops including vegetables, fruits, citrus and nuts.

Tide International USA, Inc. is committed to providing U.S. growers with quality post-patent agrichemicals at competitive prices. Ask your local agrichemical dealer about Tide products.

Timectin™

Insecticide/Miticide

Technical information for Timectin 0.15EC T&O™ & Timectin 0.15EC AG™

Advantages of Timectin 0.15EC (Abamectin Insecticide/Miticide)

- Excellent formulation! Timectin™ is formulated in the USA locally and readily available through traditional distribution.
- Timectin™ has stable formulation; no degradation within two years of time.
- Unlike other Abamectin products, Timectin™ does not contain any n-methyl pyrrolidone, which known by the state of California to cause birth defects and/or other reproductive harm.
- Experiments show high crop tolerance relative to crop phytotoxicity.
- Timectin™ can be used in combination with ORO-Agri products to enhance the bioactivities on insects and mite pests.
- All crops, including cotton, are on one label. This is convenient for multi-crop growers.
- Timectin™ is packaged in one gallon containers, four per case.
- Available in two formulations. Timectin 0.15 EC AG™ for crops and Timectin 0.15 EC T&O™ for turf and ornamental uses. Both have excellent product performance and quality.

RESTRICTED USE PESTICIDE

Toxic to Fish, Mammals
and Aquatic Organisms

For retail sale to and use only by certified applicators or persons under their direct supervision, and only for those uses covered by the certified applicators certification.
