

**NEW FROM
JT EATON™**

2G SECOND GENERATION RODENTICIDE

- Bromadiolone Anticoagulant Bait With Immediate Results.
- Effective And Fast Indoor And Outdoor Rodent Control.
- Deadly Even Against Warfarin Resistant Rodents.
- Both Can Be Applied As Clean-Up Or Maintenance Bait.
- No Bait Shyness.
- BITREX® Protection.

- BAIT BLOCK® 2G Wax Blocks Can Be Used In And Around Buildings Such As Storage Facilities For Agricultural Products, Cattle Farms, Food Storage Facilities And Houses.
- Especially Formulated For Humid Environments And Resistant Against Mold.
- High Resistance To Extreme Weather Conditions.
- Preferred By Rodents Because Of Highly Palatable Compounds.
- Multiple Edges Of The Blocks Encourage Feeding.

ITEM No. 716-B

ITEM No. 716-S

- NECTUS 2G Soft Bait Is More Palatable Than Food Mixtures In Food Warehouses And In Stables.
- Moist Bait Provides High Palatability, Especially Indoors Where Water Is Not Available To Rodents.
- Oil Scented Compounds Cause The Bait To Remain Moist, Tasty And Palatable For Longer.
- Especially Suitable For Rodents Which Are Reluctant To Take Other Baits.
- Especially Suitable For Places Where A Lot Of Food Is Available.
