

Monterey Lawn Garden Simplified Zone Map

Based on the 2012 USDA Plant Hardiness Zone Map

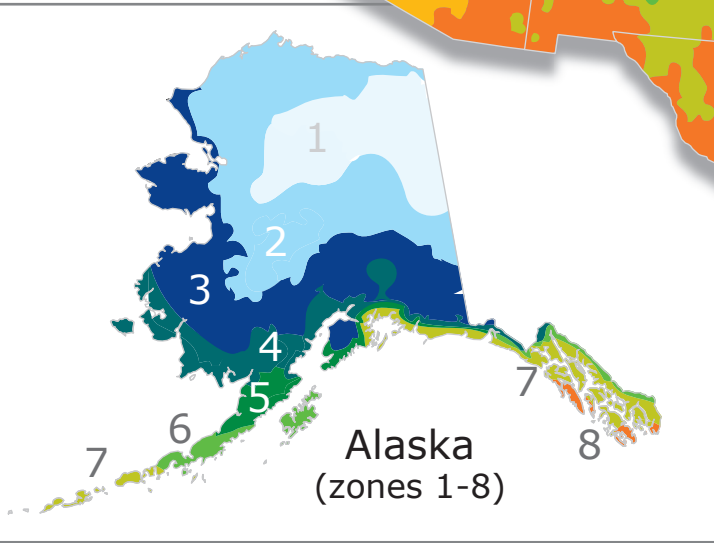

Average Annual Extreme Minimum Temperature

Zones	F	C
1	-60°	-51°
2	-49°	-45°
3	-40°	-40°
4	-31°	-35°
5	-20°	-29°
6	-9°	-23°
7	1°	-17°
8	10°	-12°
9	19°	-7°
10	30°	-1°
11	39°	+4°

Use this map to determine which plants are most likely to thrive at your location. The map is based on the average annual minimum winter temperature, divided into 10° F zones.

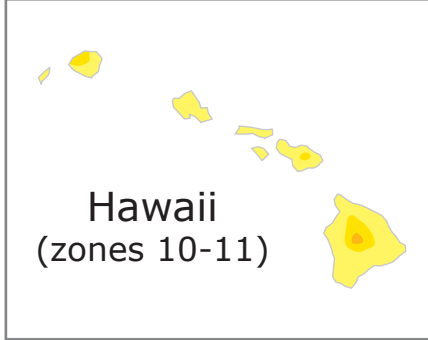

Our map is simplified from the USDA map to make it easier to read and use. If you need more detailed information, click the link below for the interactive USDA map with detailed maps by state broken into 5° F increments.
